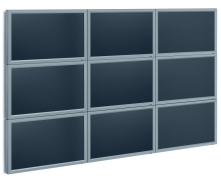
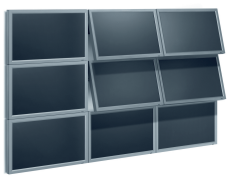
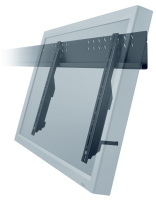
Interface wall plate
PFW 5821

Specifications

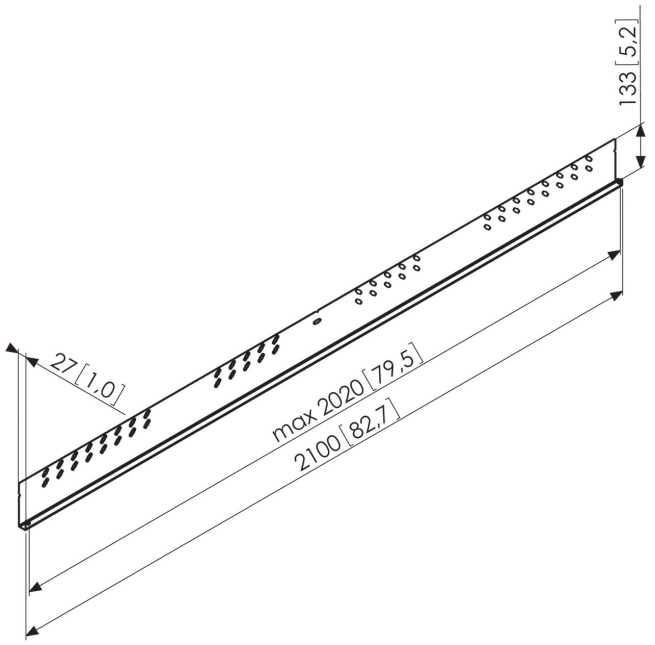
Vogel's Professional introduces modular video wall solutions especially designed for 40 – 52 inch professional displays. With this modular concept you can create a video wall solution for every setup.







Interface wall plate
PFW 5821



The video wall is consist of interface wall plates (PFW 58xx) and one set of interface display strips (PFW 5905) per display. Vogel's offers 4 different lengths of interface wall plates from 1800 to 3300 mm and one length of interface strips of 500 mm. With the Vogel's modular concept you can create your own video wall for almost every display.
Special diagonal mounting holes make it very easy to level the interface wall plate during installation. Special adjustment screws on the display strips allow vertical levelling. You can even fine tune it after installation.
Once the displays are in place, the built in service position makes it possible to easily connect cables to the displays. The service position also allows each individual displays to be removed for maintenance or replacement. Even if it is the display in the middle of the video wall.

Features

- Easy levelling and installation
- Modular: always create a fit
